

## Quantitative Teaching Evaluations

Jenny Minier

### Courses Taught and Evaluations, by Semester

University of Kentucky (2004-22)

The precise wording of the questions has changed slightly over time, but the evaluations have always included an overall question about the quality of the course and the quality of the teaching. The current versions of the questions are, "I consider this to be a quality course" and, "The instructor provided quality teaching." A response of five is "strongly agree," four is "agree," and three is "neither agree nor disagree."

For privacy reasons, the University withholds evaluations when there are five or fewer responses.
